

## IOS USERS (iPhone)

---

### How to install Boston Whaler Dealer App via TestFlight

Please follow these simple steps to install the app correctly on your iOS device

---

#### Step 1: Install TestFlight using the following QR Code:

Or Manually:

1. Open the **App Store** on your iPhone or iPad.
2. Search for **TestFlight** and install it (if not already installed).

**IMPORTANT - Please, do not open TestFlight and click on "Redeem"— instead, proceed to the next step.**

---

#### Step 2: Install Boston Whaler Dealer App

1. Scan the QR Code below or click the **link**.

[Link to Boston Whaler App](#)

2. After clicking the link, TestFlight should open automatically, displaying the app you've been invited to test.
3. Click the **"Install"** button.
1. Wait for the app to download, and you'll be ready to start using the App.

## Android Users

# How to install Boston Whaler Dealer App manually

Please follow these simple steps to install the app correctly on your Android device

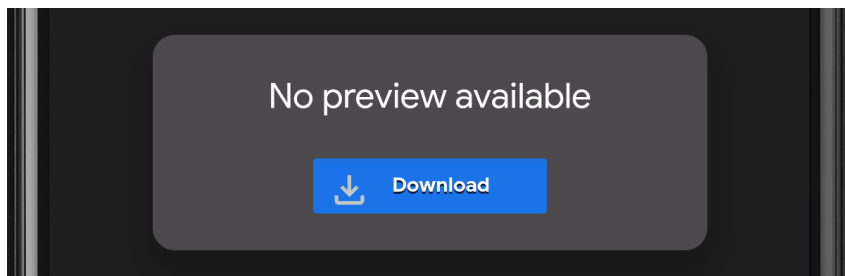

---

Use the QR Code or click the Link to download the APK file:

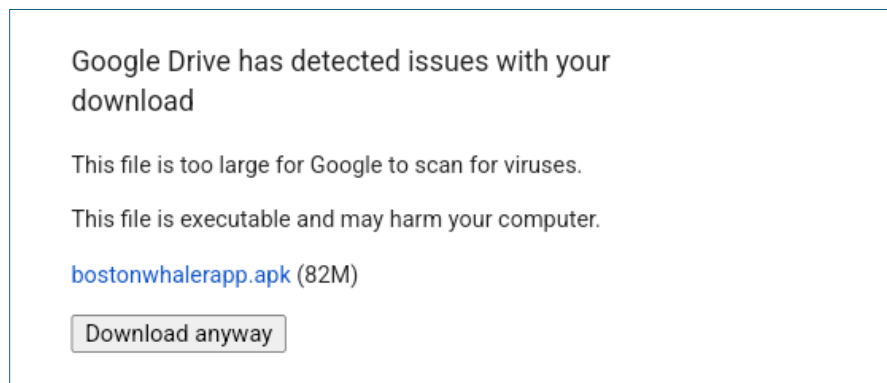

[Link to Boston Whaler APK File](#)

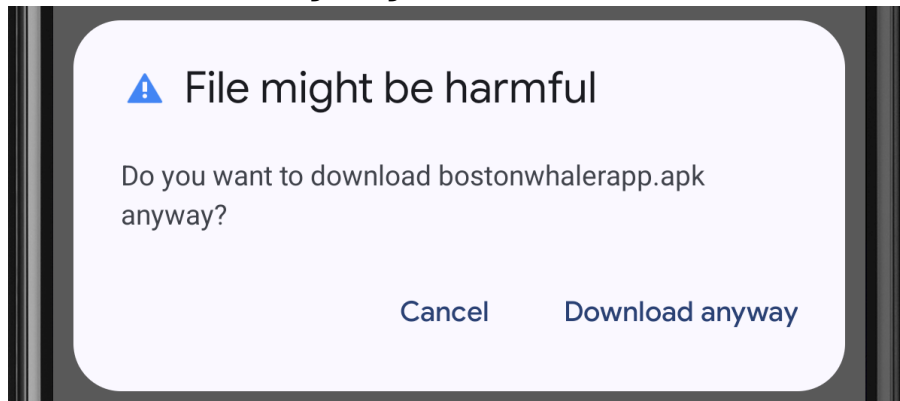

Click on “Download”

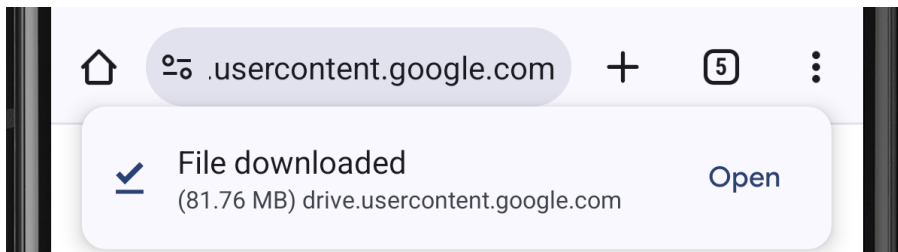

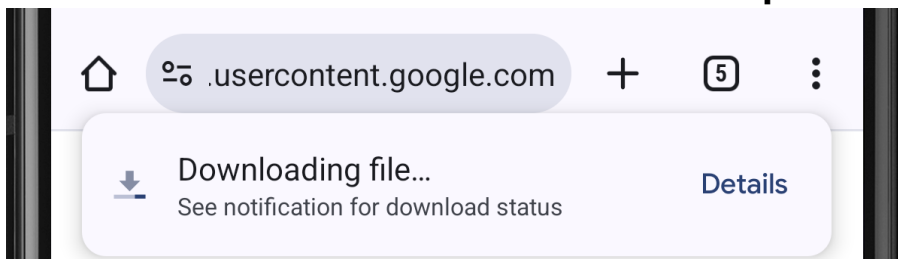

Select “Download anyway” (default alert due to file size)

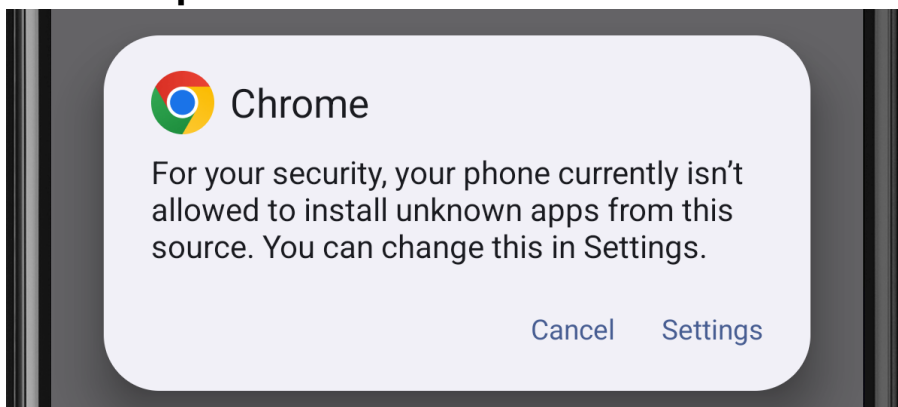

## Select "Download anyway" to confirm the Download

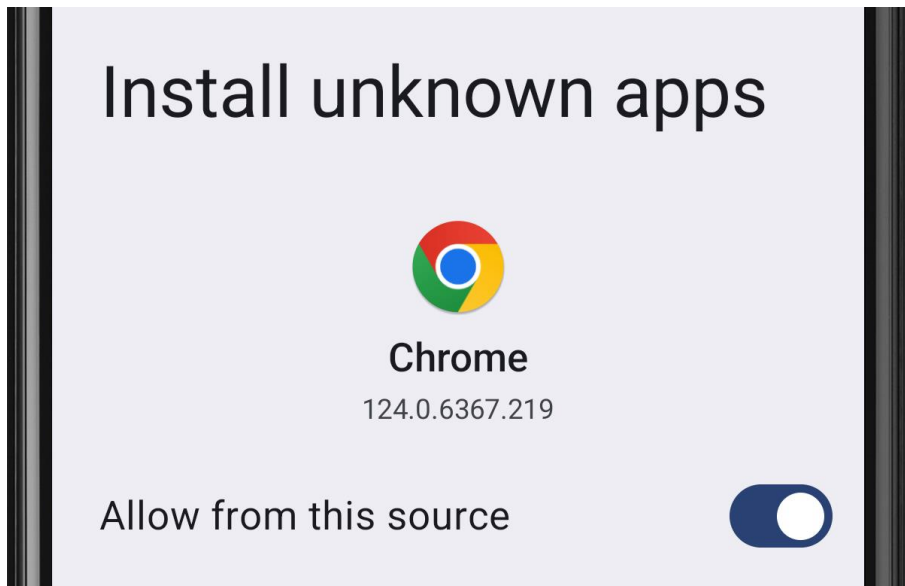

## Wait the download to be finished and then Open the file

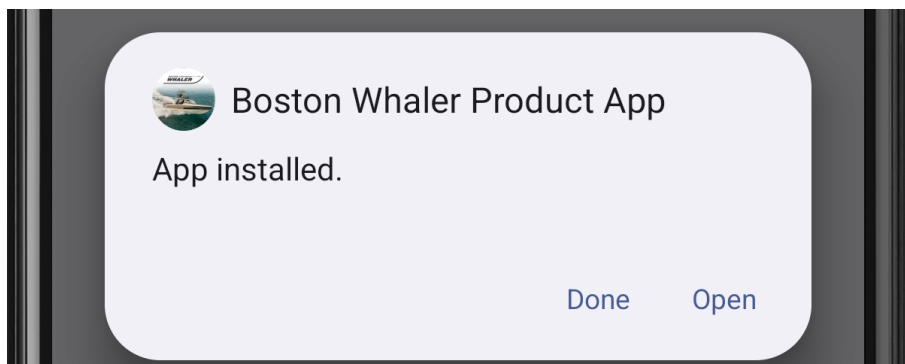

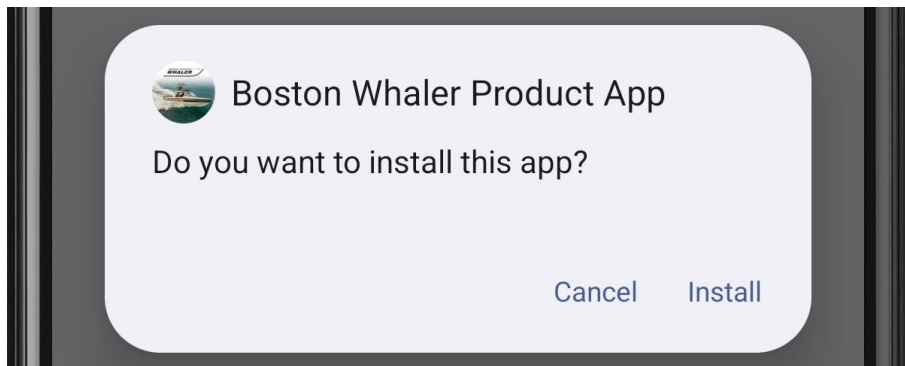

If necessary, Google Chrome may prompt you to adjust the settings to permit the installation. Simply click on settings and enable the "Allow from this source" option.

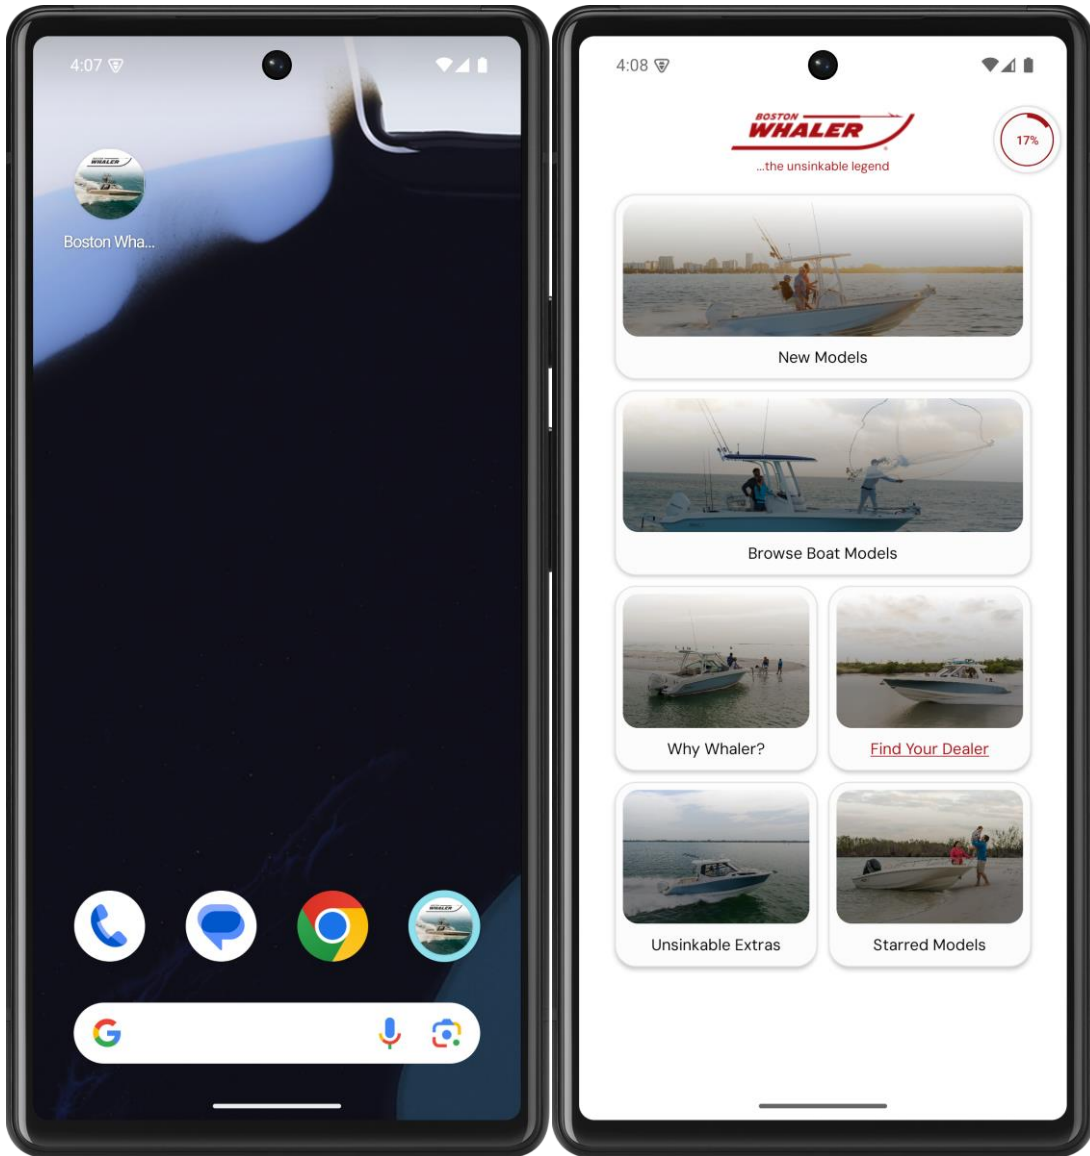

**Once you enable the option, the installer should start automatically; click Install and then Open the App.**

*If the installer doesn't start automatically, go to your download folder in Chrome and install it manually from there.*

# Boston Whaler App is installed and available in your home screen.
